Alan,

Do you have time later this afternoon, 4:00? Or anytime tomorrow? I could get a better understanding of what you are looking for and help guide you to what is available.

Kevin

Thanks Kevin. At a point in time I will take you up on your offer. However, for this week's discussion, I'll pull some items from your web site and other documents to give folks a background on the AWQMP Process.

I think that will work.

Alan

Alan,

I don't have a specific presentation that would work, but I can offer that myself or one of my coworkers could be available to give a presentation and answer questions that may come. up. Let me know if this works for you.

Kevin

Kevin,

I am going to be giving a presentation to a few EPA staff on ODA' AWQMAP process. Do you have a ready-made power point presentation that I could use for this discussion? The staff (including me) are the CZARA technical team members. We are currently reviewing established Ag management measures.

Hope all is going well with you in your new position.
